

ERA OF FUTURISTIC LIGHTING

2026-27

THE CATERLUX STORY

Ever since Caterlux's inception in 2016, we have been striving to light up your homes with our avant-garde products and exceptional client service. We specialise in energy efficient LED lighting solutions adding value to homes and office spaces. As we have embarked on a journey towards illuminating the future with our premium lighting solutions, our innovative designs with minimal pricing are all set to create history in the lighting industry.

From initial consultation to designing to conceptualization to delivering luxurious and even custom made lighting products with high quality standards is what Caterlux firmly believes in. We ensure our clients not only with hand picked high end products but also the perfect balance between quality, reliability endorsing panache and stature.

TECHNOLOGY ORIENTED

Ultra modern and minimalistic designs with a decorative edge. Our range consist of LED Panels, COB, Spotlights, Recess Mounted Downlights and Surface fixtures in best finishes, round and square shapes, most appropriate for modern spaces solutions for low ceiling heights.

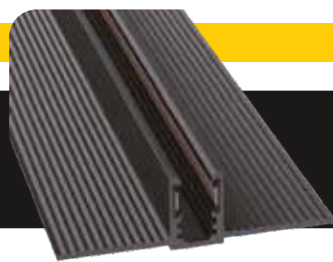

DESIGN DRIVEN

Introducing the new range of architecture lights from Caterlux. This range is yet another to innovate and provide world class lighting solutions. Modern and stylish, these lights are designed to breathe life into your living space, be it bedroom, living room, dinning areas, staircases, corridor or dressing rooms and see how your dream house brightens up everyday.

A modern interior hallway with a minimalist design. The ceiling is white and features a series of small, cylindrical pendant lights hanging from thin black cords. The walls are white, and the floor is a light-colored, polished material. On the left, there is a long, dark wooden shelf or counter with a white base. On the right, there are white cabinets with black handles. In the background, a wall of small, square, illuminated tiles is visible. The overall atmosphere is clean and contemporary.

Modulated Features

- The unique Clip-lock, recessed Downlight module mounting ring is a new innovative design, enabling simple changeover to LED lights with any 50mm diameter lamp holder.
- Using sturdy spring clips, installation is simple. Commonly used 50mm diameter fittings (typically MR16) can be installed quickly into the rear of the fixture.
- The unique design allows either 70mm or 90mm diameter cutout to be adopted with all six models.
- Providing a deep module fixture reduces glare significantly without reducing overall lighting performance with a uniform light spread.

A modern house at dusk with a green roof and a facade featuring a grid of illuminated light patterns. The house has a dark roof, a wooden balcony railing, and a large window with a black frame. The light patterns are created by a series of horizontal and vertical light strips that intersect to form a grid of glowing squares. The text is centered in the lower half of the image.
