

CATERLUX

Live an illuminated life

A NEW AGE OF
ENLIGHTENMENT
2024-25

ABOUT US

Ever since Caterlux's inception in 2016, we have been striving to light up your homes with our avant-garde products and exceptional client service. We specialise in energy efficient LED lighting solutions adding value to homes and office spaces. As we have embarked on a journey towards illuminating the future with our premium lighting solutions, our innovative designs with minimal pricing are all set to create history in the lighting industry.

From initial consultation to designing to conceptualization to delivering luxurious and even custom made lighting products with high quality standards is what Caterlux firmly believes in. We ensure our clients not only with hand picked high end products but also the perfect balance between quality, reliability endorsing panache and stature.

TECHNOLOGY ORIENTED

Ultra modern and minimalistic designs with a decorative edge. Our range consist of LED Panels, COB, Spotlights, Recess Mounted Downlights and Surface fixtures in best finishes, round and square shapes, most appropriate for modern spaces solutions for low ceiling heights.

DESIGN DRIVEN

Introducing the new range of architecture lights from Caterlux. This range is yet another to innovate and provide world class lighting solutions. Modern and stylish, these lights are designed to breathe life into your living space, be it bedroom, living room, dinning areas, staircases, corridor or dressing rooms and see how your dream house brightens up everyday.

A photograph of a modern garden path at dusk. The path is paved with light-colored tiles and is bordered by a curved white wall. A glowing yellow light strip is embedded in the wall, casting a warm glow on the path. The background features several trees and a clear sky. The text "AS BRILLIANT AS SUNLIGHT...." is overlaid on the bottom left of the image.

AS BRILLIANT
AS SUNLIGHT....

Modulated Features

- The unique Clip-lock, recessed Downlight module mounting ring is a new innovative design, enabling simple changeover to LED lights with any 50mm diameter lamp holder.
- Using sturdy spring clips, installation is simple. Commonly used 50mm diameter fittings (typically MR16) can be installed quickly into the rear of the fixture.
- The unique design allows either 70mm or 90mm diameter cutout to be adopted with all Four models.
- Providing a deep module fixture reduces glare significantly without reducing overall lighting performance with a uniform light spread.
